

# Streamline Your Sales Process

VUE DMS helps you take back control of deals and offer the best options to customers. The easy-to-use interface allows you to quickly maximize each customer's potential value across your dealership.

### Higher Profits

Calculating deals more quickly means more sales per month, bringing in higher revenue.

### A Clearer View

See the information you need without having to sort through line after line of clutter.

### Customer Satisfaction

Delivering vehicles more quickly will kick off the relationship as your customers desire.

## Key Features

**Vehicle Inspections From A Tablet** - Take photos and easily add attachments to the vehicle record.

**Create a Wholesale Deal with Only a VIN** - A streamlined deal screen allows you to quickly process wholesale deals directly from a vehicle record.

**Unlimited Trade-Ins for a Deal** - Easily add as many vehicles into a deal as necessary and simplify the process for your customer.

**Sales Dashboards** - Easily keep track of your sales numbers and other information important to you.

**Closing Deals Alerts** - Receive a notification before completely closing a deal if more information is needed. Contract it the right way the first time.

## Key Benefits

**Close Deals Quicker** - More accurate inspections, more trade-in options, and less manual entry means the car is sold more quickly and revenue comes in sooner.

**Accurate Information** - Entering and displaying the most accurate information will help your dealership get the best deals it can.

**Ease of Use** - The intuitive interface keeps you focused on your sale, not fidgeting with the DMS.

The support from VUE has kept us going. I think VUE is going to be a great DMS for Ford dealers all across the country.

VUE has helped our business as far as customer satisfaction. We have one of the top retention rates in the area, maybe even the state.
